

# Travel Grupos

## Tailor-made services

We present our proposals for services for groups in all regions of Portugal, Spain and Andorra. These are general programmes. We are specialized in interpreting the needs of each group and designing tailor-made programs.

Tell us how many nights the group wants in each area and the required category and we will suggest a tailor-made itinerary for your guests.

Combine excursions of different programs  
Choose the visits that interest your clients and we will organize the complete program: Castles, Museums, Theme parks, wine tours, gastronomic experiences.  
Countless proposals await you.

## How could this handbook be usefull for your Travel Agency?

### What's included in each program

All the proposals in this handbook include all meals (except first and last day lunch services) and a complete program of excursions with tickets and visits, but we will quote for you all services your Group will need ad-hoc.

### Free places

You have 3 places free of charge. So, for exemple, driver, tour leader and head of the group or Travel Agent manager don't have any extra charge.

### Travel insurance

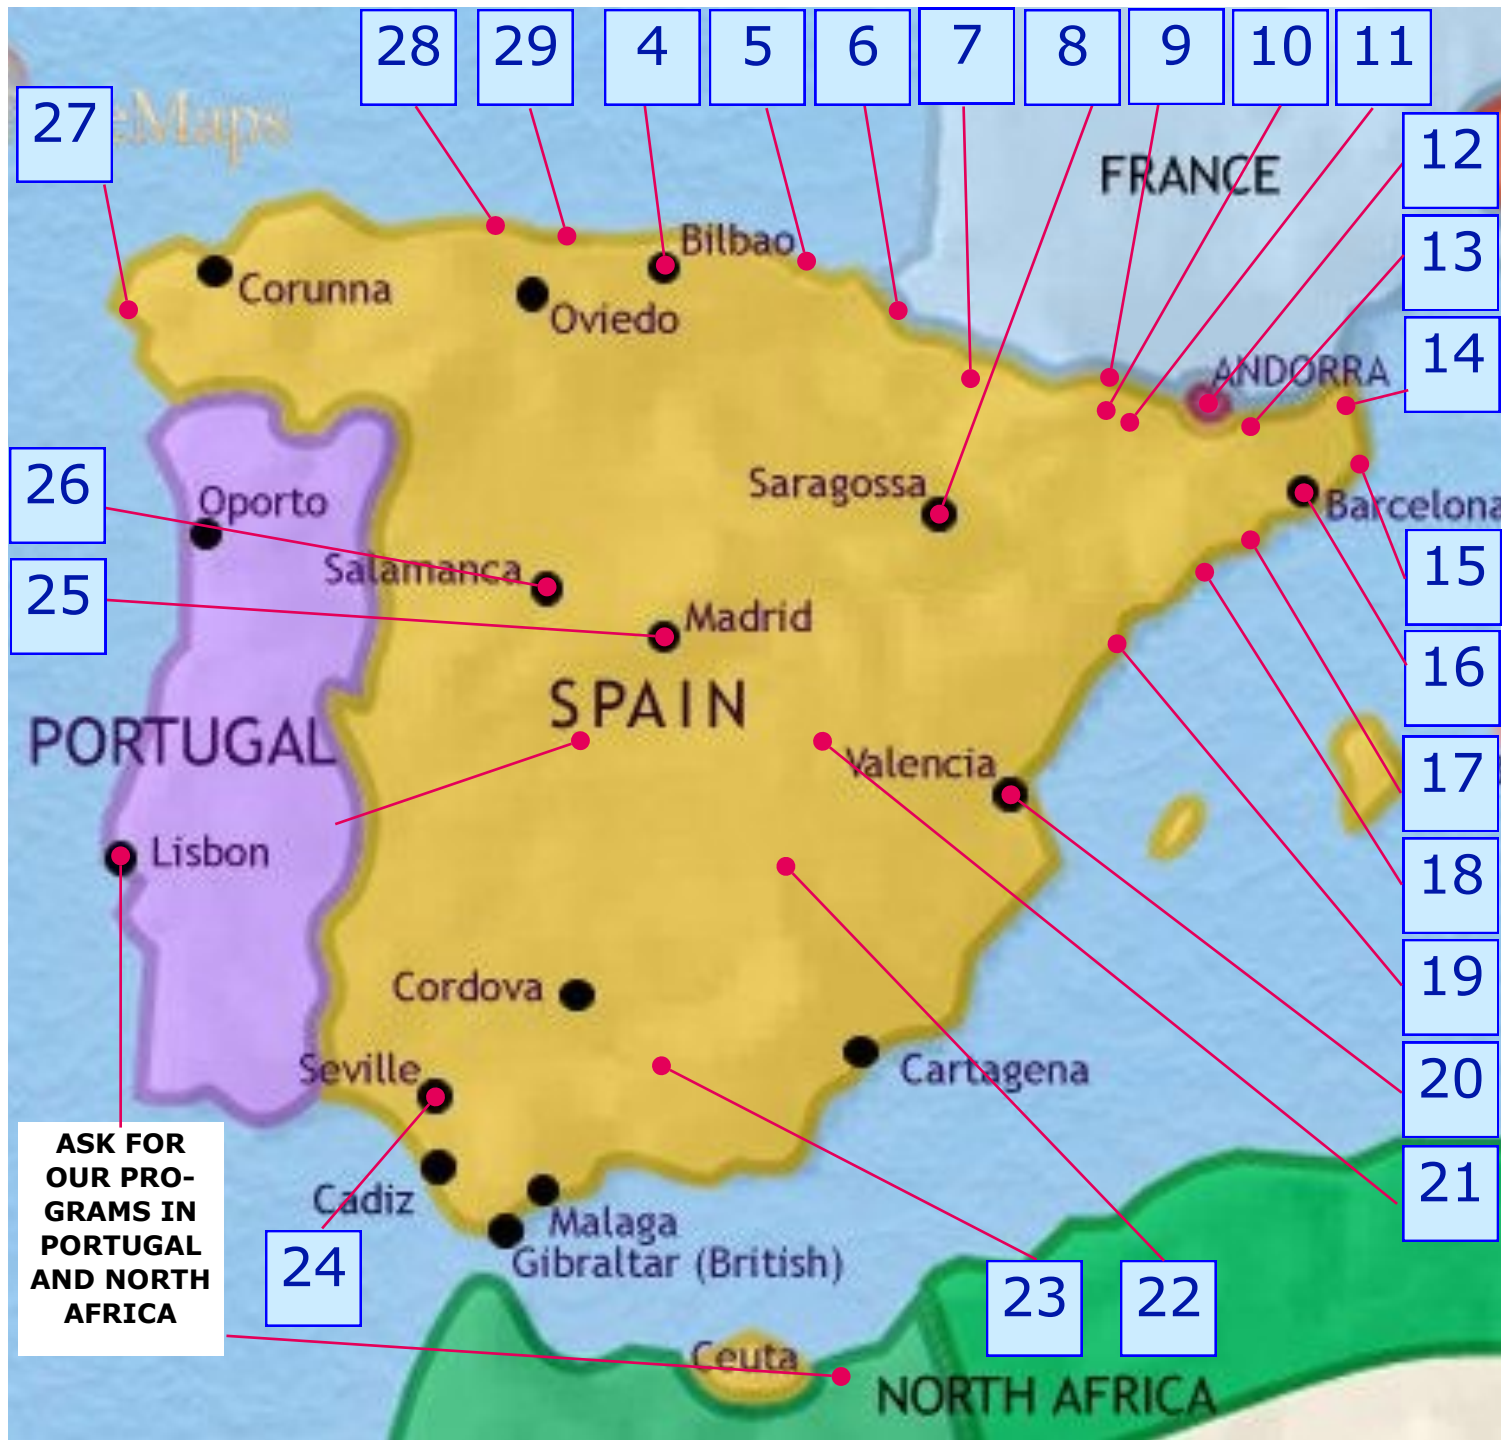

A basic travel insurance is included. There is no problem to cancel it in case that you prefer to issue your own insurance.

### Coach service

The prices we present **do not include coach services**. We will quote you tailor-made services from the point of origin or at destination (in case the group moves from its origin by plane, train or other transport).

### Tour Leader

The prices we present **do not include Tour leader** services. We recommend that all groups be accompanied by the figure who will help decisively in making the trip a success, either a trusted person of the collective or the travel agency. We are at your disposal to select the ideal candidate for each group, with services from origin or with incorporation en route or at destination.

- 1 hour Guided tour of Hondarribia

### Day 4, SAN SEBASTIÁN: BIARRITZ, ST. JEAN DE LUZ End of services

## FLYSCH ROUTE

A living display of 60 million years of history. This is the Flysch route, visiting the most striking geological feature of the Basque coast, in the municipalities of Zumaia, Deba and Mutriku. These 13 km. of stunning cliffs and outcrops of sedimentary rocks known as *flysch* are of interest to geologists, not least because they help them study prehistorical periods such as the extinction of the dinosaurs. Itzurun beach (Zumaia) is probably the best place to see the flysch. It's also where the visitors centre is located. Boat tours leave from here, where you can see the beauty of the cliffs from the sea. If you can, wait to see the sunset from the beach or the sea, because it's quite unforgettable. Further inland, the Geopark includes green valleys and mountains with caves boasting World Heritage rock art, such as the Ekain cave.

### NET RATES PER PERSON ON DOUBLE OCCUPANCY:

**JANUARY—MARCH  
NOVEMBER—  
DECEMBER, from:**
